PsycINFO

***Psychological Abstracts Information Services (PsycINFO)* is a family of interrelated information services that provides access to the serial literature in psychology and related behavioral and social sciences in a variety of ways. *PsycINFO* consists of:**

Psychological Abstracts (PA) journal (ISSN No. 0033-2887). The comprehensive monthly compilation of nonevaluative summaries of the world's literature in psychology and related disciplines.

Issue. The monthly **PA** issues contain abstracts listed under 17 major classification categories, with some categories having subsections, as shown in the Table of Contents. Under each classification heading, the abstracts are arranged alphabetically by first author. Abstracts are numbered consecutively each year. The volume contains approximately 42,000 abstract records.

Indexes. An author and brief subject index appear in each monthly issue. An expanded and integrated annual index is published at the end of each volume.

Three-Year Cumulative Indexes To PA. Author and subject indexes for all entries in the **PA** journal for 1969-1971, 1972-1974, 1975-1977, 1978-1980, and 1981-1983.

PsycSCANS: Clinical Psychology, Developmental Psychology and Applied Psychology. Quarterly publications containing abstracts from subscriber-selected journals in the areas of clinical psychology, developmental psychology and applied psychology, respectively.

PsycSCAN: LD/MR. A quarterly publication containing abstracts on learning disabilities, communication disorders, and mental retardation.

PsycSCAN: Psychoanalysis. A quarterly publication containing abstracts from selected journals and selected index terms in the area of psychoanalytic psychology.

PsycSCAN: Applied Experimental & Engineering Psychology. A quarterly publication containing abstracts from selected index terms in applied experimental and engineering psychology.

PsycINFO Retrospective: Mental Retardation (An Abstracted Bibliography, 1971-1980). A comprehensive 10-year review including abstracts on mental retardation.

PsycINFO Retrospective: Learning and Communication Disorders (An Abstracted Bibliography, 1971-1980). A comprehensive 10-year review including abstracts on learning disabilities and communication disorders.

The Thesaurus of Psychological Index Terms: 5th edition. A compilation of the vocabulary used in psychology and related disciplines as generated from the files of **PA**. The Thesaurus is divided into two sections: the *Relationship Section* and the *Rotated Alphabetical Terms Section*.

PsycINFO User Manual: 1988 edition. Developed for the individual researcher of the information available from PsycINFO services, whether through use of the printed **PA** issues and indexes or by computer assisted search of the database.

PASAR (PA Search and Retrieval). Retrospective search and retrieval service available through the PsycINFO office.

PsycINFO Database. Magnetic tapes of PsycINFO records available to institutions for annual lease or license. Designed for use by information analysts and dissemination centers, the PsycINFO Database is also used for direct interaction by individuals through a computer terminal in their own facilities. This service is available through several dissemination centers throughout the world.

For more information on the above products, uses, and costs write to PsycINFO, American Psychological Association, 1400 N. Uhle Street, Arlington, VA 22201.

Psychological Abstracts (ISSN0033-2887) is published monthly for $995 domestic, $1,040 foreign (APA member price: $497.50) by the American Psychological Association, 1400 N. Uhle Street, Arlington, VA 22201. Second-class postage paid at Arlington, VA and additional mailing offices. **Postmaster:** Send address changes to **Psychological Abstracts,** 1400 N. Uhle Street, Arlington, VA 22201.

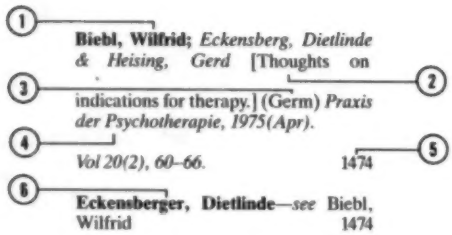
KEY TO TEXT



Examples are number coded to provide definition of their elements.

COVERAGE LIST

1. Journal title. Bold type identifies those journals that published articles appearing in this volume.
2. Publication year of first issue scanned. Asterisks within parentheses indicate that coverage by *Psychological Abstracts* began with the first issue of the publication.
3. Journal ISSN.
4. Journal frequency. The number of issues published per year. "IR" indicates that an irregular number of issues are published.
5. Journal CODEN.
6. Publisher name.
7. Publisher address.

AUTHOR INDEX

1. Authors(s). As many as four authors are listed, if there are more than four, the fourth author is listed with the notation "et al."
2. Article title. All titles are in English. Brackets are used to indicate a translated title.
3. Language in which the article was published originally.
4. Source document title and bibliographic data.
5. Abstract referenced.
6. Co-author referenced to first author.

Language abbreviations used after translated titles are:

1988 COVERAGE LIST, PART 1

The *Psychological Abstracts* Coverage List, Part 1 includes journals and other serial publications that are scanned regularly, abstracted selectively and included in *Psychological Abstracts*. The presence of a serial title in this list does not imply that all articles contained in issues of that serial will subsequently appear in *Psychological Abstracts*. Journals likely to publish articles relevant to behavior are included for a regular, systematic scan of their content. Articles are specifically and individually selected based on their relevance to psychology.

Whenever possible, publisher name, address, frequency of publication, ISSN, and CODEN are included for each publication to facilitate access to original documents by users. The date in parentheses indicates the publication year of the first issue scanned by *Psychological Abstracts* of a particular serial. Asterisks within parentheses indicate that coverage by *Psychological Abstracts* began with the first issue of the publication. Bold type identifies those journals that published articles appearing in Volume 75.

1988 COVERAGE LIST, PART 2

The *Psychological Abstracts* Coverage List, Part 2 includes journals and other serial publications that are scanned regularly, abstracted selectively and appear only in the *PsycINFO* database. The presence of a serial title in this list does not imply that all articles contained in issues of that serial will subsequently appear in the *PsycINFO* databases. Journals likely to publish articles relevent to behavior are included for a regular, systematic scan of their content. Articles are specifically and individually selected based on their relevance to psychology.

Whenever possible, publisher name, address, frequency of publication, ISSN, and CODEN are included for each publication to facilitate access to original documents by users. The date in parentheses indicates the publication year of the first issue scanned by *PsycINFO* of a particular serial. Asterisks within parentheses indicate that coverage by *PsycINFO* began with the first issue of the publication. Bold type identifies those journals that published articles appearing in Volume 75.

This Annual Author Index contains over 70,000 references to the authors and editors of approximately 37,600 abstract records published in the 12 monthly issues of *Psychological Abstracts* from January 1988 through December 1988. A companion work, the Annual Subject Index, references these records by topic.

In this volume, all authors and editors whose work was abstracted or cited in *Psychological Abstracts* for the periods indicated are listed alphabetically by surname. However, the Author Index is intended to be a name index only and not a person index. "Adams, P." will be listed separately from "Adams, Paul," even though the names may refer to the same person. Two listings for "Adams, P." may also refer to two different authors. Due to variation in the representation of names that exist in source documents, alternative locations should be consulted. As many as four authors may be listed per selection. If there are more than four, the fourth author is followed by "et al." Primary entries consist of author name(s), the title of the selection, the language of the selection (if foreign), a citation of the original source document, and the *Psychological Abstracts* abstract number under which the entry appeared. All secondary authors are cross-referenced to the primary entry, and the abstract number in *Psychological Abstracts* is printed as well.
